

EQUIPMENT & ACCESSORIES GUIDE

★ STELLITE ★

JOINT FILLER/JOINT SEALANT REMOVAL BLADE

Removal of existing joint fillers and sealants can be a messy and time-consuming process. Diamond blades build up too much heat and can melt the filler/sealant. Carbide tip blades can work, but they don't stay sharp long and require frequent replacement. Stellite® tipped cutting blades solve both heating and wear issues and a single blade can rip through thousands of feet of filler/sealant with ease.

Stellite® is a cobalt-chromium "super alloy" with a matrix designed to provide high wear resistance with an extremely high melting point - making them an ideal choice for extreme cutting applications. Each specially shaped Stellite® removal blade contains six thermally stable Stellite® cutter tips. These tips effortlessly slice through hard or soft fillers/sealants without melting the product. Once you try a Stellite® blade for filler/sealer removal, we're confident you'll never go back to another blade again!

Advantages:

- Effectively removes soft and semi-rigid materials without melting the material, including polyureas!
- High Pressure, High Temperature (HPHT) Solid Stellite® Cutting bits.
- Cutting bits maintain their sharpness to slice through soft or hard semi rigid fillers and sealants.
- HPHT Cutters help blade from dragging, thus minimizing friction heat.
- Stellite® Cutters hardened nature helps ensure long blade life.
- Ideal for use with walk-behind joint-cutting/clean-out saws. Saws with lower rpm's will help further reduce heating blade and filler.

Available Sizes:

Diam.	Width	Arbor Size	Compatible Saws	MSRP	
7"	.125	Universal or 5/8"-7/8"	Perfect Trac, Gorilla Saws, US Saws Dust Buggy	\$185.00	\$166.50
7"	.187	Universal or 5/8"-7/8"	Perfect Trac, Gorilla Saws, US Saws Dust Buggy	\$185.00	\$166.50
8"	.125	5/8"-7/8"	Gorilla Saws, US Saws Dust Buggy	\$220.00	\$198.00
8"	.187	5/8"-7/8"	Gorilla Saws, US Saws Dust Buggy	\$220.00	\$198.00

U.S.SAWS

Surface Preparation

ONE MAN POLYMER PUMP

High volume electric pump for dual component installation.

- The New Design of this joint fill pump allows for one person operation
- The unit comes standard with a 1:1 component ratio, but a 2:1 component ratio is available
- Lower tanks makes filling easier
- Dedicated storage area for generator or battery
- Waste bucket holder for less drips on the floor
- Enclosed box for tools storage

MSRP
\$7250.00

AST
ADHESIVE SYSTEMS
TECHNOLOGY CORP

METER-MIX DISPENSE EQUIPMENT

METERING & DISPENSING EQUIPMENT FOR THE PROFESSIONAL CONTRACTOR

PCH GMP-050 "PRO"

FEATURES AND BENEFITS

- Portable, Reliable, Rugged Design
- Easy to Operate & Maintain
- Stainless Steel Construction
- Changeable Ratios
- 9 Gallon Stainless Steel Tanks
- ½ HP DC Drive Motor
- Automatic or Manual Dispense Valve
- Electric/pneumatic Powered
- Backed by AST Warranty
- Pumps Non-Abrasive Materials
- Fixed Ratios of 1:1 to 4:1
- Continuous Flow Up to 0.5 GPM
- Fluid Pressures Up to 750 PSI
- Viscosities Up to 5,000 CPS
- Variable Flow Rate
- Uses AST GMP Metering Pumps

APPLICATIONS

- Joint Filling
- Concrete Restoration
- Small Joint Sealing
- Small Spall Repair
- Anchoring
- Spray

MSRP
\$9425.00

BDN 511

Floor channel cutting system

dry

Diamond floor channel cutter with 11 diamond cutting blades for bridgeless milling
up to 2" wide and 1.8" deep

- 2.400 Watt power and best rotation speed for extensive milling in the hardest of materials without effort
- All cutting depths possible in one step with 11 diamond cutting blades

- Safe, with a unique and powerful overload electronic
 - Electronic control to prevent overload, therefore no waiting time until the motor can restart
 - Low operating cost through an electronic and a mechanical clutch
- Electronics for a smooth start and an LED light for optimal cutting efficiency
- Dust-free milling with excellent dust suction device, 1 1/2" diameter

POWER	TORQUE	BLADE Ø	CUTTING WIDTH	CUTTING DEPTH	WEIGHT
2.400 W	7.800 rpm	6"	up to 2"	up to 1.8"	14.3 lbs

New & Improved!

PERFECT TRAC

CONCRETE JOINT CUTTING AND CLEANING SAW

PT Chassis

Blade not included

Features:

- ★ Cutting depth up to 2^{1/8} inches
- ★ Improved dust collection manifold
 - Solid aluminum construction
 - Four-way adjustable handle
 - Self-adjusting safety guard
 - Low center of gravity (weighs 60 lbs)

Ideal For:

- Cutting new joints in concrete
- Concrete joint cleaning
- Epoxy and polyurea filler removal

MSRP
\$2100.00

The *Perfect Trac* is a revolutionary saw for cutting and cleaning joints in concrete. Its low center of gravity and weight driven design allows for less vibration, cleaner, straighter cuts and reduced joint edge chipping during typical sawing operations.

Perfect Trac's solid aluminum design provides unequalled durability in a lightweight form, allowing for easier transport and maneuvering than most other saws.

Call today and find out why *Perfect Trac* is changing the way contractors cut and clean joints!
